Dear Barry

Construction Logistics and Community Safety - Australia (CLOCS-A) Memorandum of Understanding Confirmation as a Supporting Partner

I am delighted to confirm that the Amy Gillett Foundation (AGF) is proud to apply to the join the CLOCS-A Memorandum of Understanding (MoU) Finalised Version 1 December 2020 as a Supporting Partner (SP).

The MoU records the agreement between the Steering Group Partners and SP to form a relationship to work together in improving road safety and the operational efficiency relating to the logistics of the construction of infrastructure projects. The MoU will specifically act as a catalyst for CLOCS-A Partners to champion and guide the establishment of CLOCS-A.

AGF is the leading Australian cycling safety organisation, we are committed to actions that improve safety for everyone when they ride a bicycle. We draw on evidence and international best practice, and collaborate with governments, business and the community to create a safe environment for cyclists, while maintaining an efficient road network for all road users.

We currently deliver Sharing Roads Safely, a training course for heavy vehicle drivers designed to increase awareness and safe behaviour when sharing the road with vulnerable road users. Sharing Roads Safely was developed in collaboration with the Victorian State Government and the heavy vehicle sector and is based on international best practice, in particular the Transport for London course, Safe Urban Driving, which was developed as part of the CLOCS program. Sharing Roads Safely has been adapted for use in Australia and has been enhanced to include experiences and inputs to maximise the value for road safety in Australia.

In line with the MoU, AGF enters into it in good faith and will actively support and participate in CLOCS-A activities.

Yours sincerely
