Dear Prof. Charlton,

Re: Construction Logistics and Community Safety - Australia (CLOCS-A) Memorandum of Understanding - Confirmation as a Supporting Partner

I am delighted to confirm that Lime Australia Pty Ltd is proud to apply to the join the CLOCS-A Memorandum of Understanding (MoU) [Finalised Version](#) 29th April 2022 as a Supporting Partner (SP).

The MoU records the agreement between the Steering Group Partners (the Parties) and the SPs to form a relationship to work together in improving road safety and the operational efficiency relating to the logistics of the construction of infrastructure projects. The MoU will act as a catalyst for CLOCS-A Parties and SPs to champion and guide the establishment of CLOCS-A.

Lime is a global shared mobility company, providing e-bicycles and e-scooters, to enable more people to choose low carbon travel for short journeys. Safety is our number one priority, and we recognise the importance of the work of CLOCS-A in improving national standards to help make the roads safer for people who walk, ride bikes, e-scooters and motorbikes.

Lime is an industry body and we are pleased to now have Bastien Wallace on our team, whose expertise encompasses years of technical expertise and experience advocating for the needs of bike riders, and working on active transport issues. We are proud to support the work of CLOCS-A through enabling her continued contribution to this work on the behalf of Lime, its customers and micro-mobility users more broadly.

As a SP of CLOCS-A, we commit to champion the work of CLOCS-A, provide insights into the use, issues and safety concerns of e-scooter users, provide insights as they become available into new technologies or safety data that may help the work of CLOCS-A.

In line with the MoU, Lime Australia Pty Ltd agrees to enter into the MoU in good faith and will actively support and participate in CLOCS-A activities. We nominate Bastien Wallace 0405273801 Bastien.Wallace@li.me as our CLOCS-A contact.

Yours sincerely,
